What type of courses does Learnov8 run and what is the process?

We run custom-made courses for your sales staff, usually in group sizes of up to 20 people.

We also run courses and 1 on 1 training for sales directors and sales managers.

All you need to do is provide us with what you want to achieve or tell us about the training requirements of the group and we will prepare a course proposal for you along with the costs.

If you make business to business, telephone or retail sales then we are the training provider for you.

What makes us unique is that every delegate who attends one of our courses will receive unlimited amounts of email and telephone support from their course leader. That means that they can ask for some personal advice and tips whilst implementing what they have covered during the course.
